

# MONARFOL® Accessories for Roofing

**MONARFOL® MonarTape**

The **MONARFOL® MonarTape** is mainly used for repair and sealing around breaks through the **MONARFOL®** under roof. The **MONARFOL® MonarTape** is available in the colour clear and black. Roll size: 50 mm x 20 m

**MONARFOL® Butyl tape**

The **MONARFOL® Butyl tape** is for easy jointing of side and end overlaps of roofing membranes, vapour barriers, DPMs, methane and radon barriers, etc. When applying the tape the surface must be clean and dry. Roll sizes: 1 mm x 30 mm x 30 m  
2 mm x 10 mm x 22,5 m

**MONARFOL® MonarSeal**

This very easy and completely watertight system is for vent pipes from kitchens and bathrooms. The **MonarSeal** is highly versatile as it is available for virtually any type of round and square pipes.

**MONARFOL® MonarSeal Plus**

The **MonarSeal Plus** has the same function as the **MonarSeal**, but is specially designed to suit insulated ventilation ducts. It is equipped with straps, which are mounted around the battens for more stability.

**MonarTens MONARFOL®**

The spring is placed from outside and nailed to the battens. The spring is used to avoid noise from the underroof, which may occur in windy conditions.

**MONARFOL® MonarClips**

The **MONARFOL® MonarClips** are used for securing of overlapping for horizontally mounted Roofing Underlay.

**MONARFOL® MonarSky**

The **MONARFOL® MonarSky** is a collar that fits most of the standard sizes skylight windows on the market. The advantage of the product is that it is made from one piece, meaning no leakage problems in the four corners of the skylight window.

**MonarVent MONARFOL® Grey**

The roof ventilation system is used for **MONARFOL®** underlay and is placed in the underroof near to the ridge or above and under roof windows or similar breaks through the underroof. The system is complete with top cover, which serves as insect- and snow grille. The **MonarVent Grey** is without the top cover, but a separate snow/insect grill is available.

**MonarVent MONARFOL®**
